Elkhart, IN 46514
IMPORTANT INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electrical shock, and injury to persons including the following:

DANGER: High temperatures may be generated under certain abnormal conditions. Do not partially or fully cover or obstruct the front of the heater.

1. Read all instructions before using this appliance.
2. Do not use outdoors.
3. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
4. Children should be supervised to ensure that they do not play with the appliance.
5. This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces.
6. Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left operating unattended.
7. Unplug power cord before servicing or moving the heater. Always unplug heater when not in use.
8. Do not operate any heater with a damaged cord or after the heater malfunctions, has been dropped or damaged in any manner. Return heater to authorized service facility, for examination, electrical or mechanical adjustment, or repair.
9. This heater is not intended for use in bathrooms, laundry areas and similar indoor locations. Never locate heater where it may fall into a bathtub or other water container.
10. Do not run cord under carpeting. Do not cover cord with throw rugs, runners, or the like. Arrange cord away from traffic areas where it will not be tripped over.
11. To disconnect heater, turn controls to off, then remove plug from outlet.
12. Connect to properly grounded outlets only.
13. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as it may cause an electric shock or fire or damage the heater. Do not block or tamper with the heater in any manner while it is in operation.
14. To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft surfaces, like a bed, where openings may become blocked.
15. A heater has hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint, or flammable liquids are used or stored.
16. Use this heater only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electrical shock, or injury to persons.
17. Where possible, avoid the use of extension cords because the extension cord may overheat and cause a risk of fire.
18. This heater includes an overheating protection system that shuts off the heater when parts of the heater are getting excessively hot. If the heater shuts off, immediately turn the heater OFF and inspect for any objects, on or adjacent to the heater, which may cause high temperatures. DO NOT OPERATE THE HEATER UNTIL IT IS RESET. To reset the heater, turn it OFF, unplug it from the electrical outlet, and wait five to ten minutes for the unit to cool down before plugging it back in and turning the heater on.
19. Make certain that the power source conforms to the electrical requirements of the heater.
20. To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not place heater on soft surfaces, like a bed, where openings may become blocked.
21. A heater has hot and arcing or sparking parts inside. It must NOT be used in potentially dangerous locations such as flammable, explosive, chemical-laden or wet atmospheres. This heater is intended for use in general use only.

WARNING: REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK—DO NOT USE THIS HEATER WITH ANY SOLID STATE SPEED CONTROL DEVICES.

22. SAVE THESE INSTRUCTIONS.

**NOTE:** This remote control uses 1 CR2032 Lithium ion button cell battery (Included). Never dispose of batteries in fire, except under conditions of controlled incineration. Failure to observe this precaution may result in an explosion.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-增加 the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that on which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

This Class B digital apparatus complies with Canadian CES-003.
